ADDRESS TO THE PARTICIPANTS OF THE 2025 GASTROSESSION

Dear participants and guests of the 51st session of the Central Research Institute for Gastroenterology!

We invite you to take part in the **51st scientific session of the Central Research Institute for Gastroenterology «Interdisciplinary consilium in Gastroenterology»** that will be held on **February 27-28, 2025**.

Today, there is an obvious need to manage patients taking into account multiple conditions, both being causes and consequences of the digestive system disorders. This applies to therapeutic, surgical and oncological diseases.

A special feature of this Gastrosession will be **joint meetings in the form of medical councils**, where the most relevant issues will be discussed by leading gastroenterologists and experts in **surgery, rheumatology, ophthalmology, endocrinology, pulmonology and oncology**. We hope that the decisions developed during the joint sessions will allow us to further improve the methodology of diagnostics and treatment of a number of gastroenterological conditions.

A separate session is devoted to the **results of research projects** conducted within the framework of the grant program by the Moscow Government. Traditionally, **endoscopy pre-congress courses, interventional radiology meeting and a symposium of young scientists** will be held during the session.

We will be glad to meet you at the 51st scientific session of the Central Research Institute of Gastroenterology and are confident that our joint work will contribute to the development of new research connections between specialists of various fields.

GENERAL INFO

08:00 Registration

09:00 – 09:30 Opening session

09:30 – 10:15 Plenary Lecture «Artificial intelligence in life and medicine»

G.O. Gref

10:15 – 11:45 Symposium «Autoimmune gastritis: interdisciplinary problem»

Moderators:

D.S. Bordin

M.A. Livzan

S.G. Khomeriki

10:15 – 10:35 Chronic autoimmune gastritis: risk factors, clinical manifestations, diagnostics principles

I.G. Bakulin

10:35 – 10:50 Pathologist's role in the diagnosis of autoimmune gastritis

S.G. Khomeriki

10:50 – 11:05 Anemic syndrome in autoimmune gastritis. Differential diagnosis. Treatment tactics

G.A. Dudina

11:05 – 11:20 Autoimmune gastritis: what not to miss from an endocrinology point?

A.M. Mkrtumyan

11:20 – 11:35 Management of patients with autoimmune gastritis and gastric neuroendocrine tumors

I.Yu. Feydorov

11:35 – 11:45 Discussion

11:45 – 12:00 Break

12:00 – 13:30 Satellite Symposium sponsored by «Abbott Laboratories» «Pancreatic and liver diseases: latest news»

Moderator:

D.S. Bordin

12:00 – 12:15 Exocrine pancreatic insufficiency: a review of current recommendations

D.S. Bordin

12:15 – 12:30 Secondary exocrine pancreatic insufficiency

A.V. Okhlobystin

12:30 – 12:50 Pancreatic insufficiency and diabetes mellitus

E.Yu. Pashkova

PROGRAMME OF THE 51ST SESSION OF CRIG

12:50 – 13:10 Alcoholic liver disease: a review of new clinical guidelines

K. Raykhelson

13:10 – 13:30 Metabolically associated fatty liver disease: News and Perspectives

A.O. Bueverov

13:30 – 13:45 Break

13:45 – 14:30 Discussion «Chronic pancreatitis: overdiagnosis or underdiagnosis?»

Moderator:

D.S. Bordin

Speakers:

V.B. Grinevich

Yu. A. Kucheryaviy

14:30 – 14:45 Break

14:45 – 16:15 Symposium «Metabolically associated fatty liver disease as a key factor in the development of comorbid conditions»

Moderators:

E.V. Vinnitskaya

S.N. Batskikh

14:45 – 15:05 Risks of liver cirrhosis in non-alcoholic fatty liver disease

S.N. Batskikh

15:05 – 15:25 Metabolically associated fatty liver disease in cardiovascular diseases - concomitant pathology or risk factor?

V.N. Larina

15:25 – 15:45 Diabetes mellitus and fatty liver disease - characteristics of comorbidity and treatment

A.M. Mkrtumyan

15:45 – 16:05 Metabolically associated alcoholic liver disease – new insights into the association of metabolically associated liver disease and alcohol consumption

K. Raykhelson

16:05 – 16:15 Discussion

16:15 – 16:30 Break

16:30 – 18:00 Symposium «Diagnosis and treatment of patients with immune-inflammatory diseases: focus on the interaction of rheumatologists and gastroenterologists»

Moderators:

A.I. Parfenov

O.V. Knyazev

G.V. Lukina

16:30 – 16:45 Inflammatory bowel diseases as systemic immune-inflammatory entity

O.V. Knyazev

16:45 – 17:00 IBD-associated antibodies in ankylosing spondylitis

E.N. Aleksandrova

17:00 – 17:15 Janus kinase inhibitors in patients with inflammatory bowel disease and spondyloarthritis

G.V. Lukina

17:15 – 17:30 NSAIDs in patients with inflammatory bowel disease and spondyloarthritis

P.I. Kulakova

17:30 – 17:45 Biological therapy in patients with inflammatory bowel diseases and spondyloarthritis

M.A. Borisova
